

MD SHAKIL

Muzaffarpur, Bihar, 843103

+91-7488940100 iam.shakil.dev@gmail.com [LinkedIn](#) [Portfolio](#)

PROFILE SUMMARY

- Proven ability in analyzing large datasets, debugging SQL queries, transforming data to derive business decisions.
- Experienced Full stack web developer with strong foundation in data structure and algorithm, Gained through academic projects and internships
- Seeking an opportunity to leverage technical expertise in software development

EDUCATION

- | | | |
|---|---------------------|---|
| Vivekananda Global University
B-tech in CSE | 8.2 /10 CGPA | Jaipur, Rajasthan
Aug. 2022 – May 2026 |
| RHU + 2
Intermediate in Science | 3.6 /5 CGPA | Bochahan, Bihar
Aug. 2020 – May 2022 |

EXPERIENCE

- Web development Intern**
webstack academy Feb. 2024 – Apr. 2024
Remote, India
 - Role :** Full Stack Developer
 - Project :** chat bot AI, [LIVE](#)
Chat bot AI that generates responses based on input prompts.
 - Contributed to the development of a chat bot AI using React, Gemini APIs, Express.js, and Node.js
 - Implemented natural language processing techniques that improved response accuracy by 30%.
- JPMorgan Chase & Co Virtual Experience Program** Dec. 2024– Jan. 2025
Remote, India
 - Integrated Apache Kafka, H2 Database, and REST APIs into the Midas Core application, ensuring efficient transaction processing, validation, and user balance querying.
 - Demonstrated expertise in Spring Boot, Java, and microservices architecture by implementing robust solutions and successfully passing all provided tests.

PROJECTS

- Text to Image Generate** [Live Demo](#)
- Role:** Full Stack Developer
 - Project:** Text to image Generator
 - Technologies Used:** React, Clipdrop APIs, Node.js, MongoDB, Tailwind CSS, React-Toastify Nov. 2024 – Dec. 2024
 - Designed and implemented a project that allows users to generate images from text inputs in real-time.
 - Integrated Clipdrop APIs for image generation.
 - Utilized React for front-end development.
 - Implemented user authentication, profile management, and data updation features.
 - Ensured a seamless user experience with Tailwind CSS for styling and React-Toastify for notifications

TECHNICAL SKILLS

- Languages :** Java , C++ , JavaScript
- Front-end :** HTML CSS , Tailwind, React.js
- Back-end :** Node.js, express.js , other Frameworks
- Database:** MongoDB
- Tools & platforms :** Git , VS Code
- Data visualization , Data Structure and Algorithm

ACHIEVEMENTS

- Text to Image Generator [LIVE](#) , Recognized as one of the top innovative projects in a tech competition for creativity and technical excellence.
- Achieved Top 4 Position in "Code Red 2.0" coding competition at college .

ACTIVITIES

- Actively Participated In Hackathon & Graphic Designing**
- Led the collage graphics designing team, inorganic and managing various designing projects and events enhancing the teams creative output and visibility
- Actively participated as a singer in college functions
